

YOUSSEF MOHAMED ABDELASOUL

JUNIOR DATA ANALYST

Assiut, Egypt | +20 103 074 8981 | youssef.mohamed.bis@gmail.com | linkedin.com/in/youssef-mohamed-abdelrasoul

PROFESSIONAL SUMMARY

Detail-oriented and analytical Business Information Systems (BIS) student specializing in Data Analysis, Advanced SQL Querying, and Business Intelligence. Proven ability to extract, clean, and transform complex datasets using SQL, Python, and Excel Power Query to drive data-driven decision-making. Certified in Data Fundamentals by IBM SkillsBuild and trained in modern digital and technical environments. Seeking to leverage strong technical capabilities and business acumen in a challenging Junior Data Analyst role.

WORK EXPERIENCE & INTERNSHIPS

Summer Intern — Generative AI & Banking Applications | Commercial International Bank (CIB), Egypt August 2026

- Participated in practical training covering data-driven applications, Generative AI concepts, and digital transformation best practices within the financial sector.
- Completed weekly analytical modules on corporate topics and technical problem-solving, culminating in practical assessments.

Professional Communication & Scenario Trainee | Digital Egypt Pioneers Initiative (DEPI) in partnership with Berlitz July 2026

- Completed practical training modules focused on technical stakeholder communication, corporate workflows, and professional client interaction strategies.

PROJECTS

Sales Performance Dashboard | Excel & Power Query

- Link: <https://drive.google.com/file/d/1nMIHV6fKp9iQL2A1fdr049IrgKaPIOu6/view>
- Built an interactive Sales Performance Dashboard in Excel analyzing 9,994 raw transaction records (\$2.3M+ revenue, \$286K+ net profit).
- Cleaned, transformed, and modeled data using Power Query to calculate core business KPIs, including a 12.5% Profit Margin and a \$459 Average Order Value (AOV).
- Designed dynamic Slicers, Pivot Tables, and trend charts to identify monthly peak sales (November) and top revenue-generating products.
